

### PUPIL PREMIUM PLAN 2017/2018

Last Census	January 2017
Total number of pupils on roll (May 2017)	414
Total number of pupils eligible for Pupil Premium Grant (Jan 17 census)	93
Total number of pupils eligible for Pupil Premium Grant (May 17)	98
Amount of PPG per pupil	£1320
Indicative PPG as advised in School Budget Statement April 17	£122760
Actual Pupil Premium Grant allocated 17/18	£122760

#### **What is the Pupil Premium Grant?**

The Pupil Premium Grant is additional funding to help schools diminish the attainment gap between children from low-income and other disadvantaged families and their peers. If a child has been eligible for free school meals (FSM) at any point over the past 6 years or has been continuously looked after for at least 6 months (LAC) the school receives an amount per head within their budget. This has risen each year to the current amount of £1320 per pupil. A provision is also made for children who have a parent in the armed services.

Beechfield School is committed to ensuring maximum progress for all groups of children and strives to close any gaps.

We have a clear, strategic approach to the use of specific Pupil Premium funding and plans are integrated into wider school support and improvement systems. These are monitored and evaluated regularly and in depth data analysis ensures that the correct support and strategies are identified to maximize progress.

Strong leadership systems will ensure that Pupil Premium funding has the necessary impact. This includes a governor having responsibility for Pupil Premium, the Headship team leading the development plan and a coordinated strategic leadership approach to implementing plans. All matters relating to the Pupil Premium will be reported back to the Governors via the Curriculum, Staff and Pupil sub-committees, ensuring that the school is held to account for the impact of spending.

#### **Key Priority:**

To raise the attainment of all students in receipt of the Pupil Premium funding.

To bring the attainment of those in receipt of the Pupil Premium funding in line with the attainment of their peers nationally.

**What do we expect to see?**

Targeted additional support strategies which result in every student, however financially disadvantaged, being able to have full access to our curriculum and all our extra-curricular experiences. All students in the target group who are currently underperforming because of the impact of their disadvantaged background will make improved progress leading to narrowing of any attainment gaps nationally.

**What do we expect to see?**

Our children come predominantly from the surrounding neighbourhood and reflect the ethnic diversity of the community we serve. The number of pupils from minority ethnic groups (78%) and pupils with EAL (63%) is significantly above the national average. Our pupils may start school with lower than average attainment and this can be coupled with limited language development and less well developed social skills. They may also have emotional and behavioural needs as well as academic ones that we need to support.

**Approach:**

We are adopting a range of strategies to overcome these difficulties. Staff awareness of the Pupil Premium funding has been a focus and will continue to be across the year. Individual meetings between SLT and all Teachers have taken place and a pre-assessment of children in receipt of Pupil Premium funding has been agreed and recorded. Monitoring will be regular and reactive across the year, having the pupils at the core of any additional decisions or changes.

Staff has been employed and deployed so that sessions are offered every day to individuals and small groups across the school in reading, writing and maths providing academic support. In addition to this, interventions to meet emotional, social and behavioural needs are offered to specific children. A thorough analysis is carried out to ascertain which children would benefit from each strategy we offer and priority is given to pupils in receipt of the Pupil Premium funding.

Due to the school's high levels of mobility we will constantly monitor the arrival of new pupils and we are working as a team to get to know each child as an individual and build a relationship with the children and their wider family. We recognise that initially, some children will require help to meet social and emotional needs before they are ready to learn and progress academically. We offer counselling, 1:1 mentors, small social groups and behavioural support in order to support the individual to succeed.

Another strategy will be to support children in engaging in the wider aspects of school life – the opportunity to take part in clubs, trips and residential school journeys, providing a richness of experience. For children with low self-esteem and confidence, completing physical challenges can provide knowledge that they can overcome a number of barriers and make them more willing to persevere and take a challenge in the future.

Action	What does this mean?	Monitored by	Cost from PPG funding	Specific intended outcome	Review by	Outcome Actual impact column
Senior leader to monitor the expenditure of the grant and measure its impact on pupil progress. (FTE 0.15)	Using data analysis and pupil/teacher feedback the DHT will measure the impact of each action regularly and edit/change accordingly.	HT & Gov	£10410	Monitor the impact overall consistently with a 'hard data' analysis at least half termly and act accordingly.	HT Half-termly	
Additional outstanding teaching support in Year 6  We are breaking this support down into: <ul style="list-style-type: none"> <li>2.5 days per week Booster group teaching</li> </ul>	Teaching support in Y6 for Maths and English from skilled teachers for targeted PP children – group and individual teaching. Booster sessions in smaller groups for Y6 pupils.	DHT (NA) and reported to Governing body	£11763	Diminish differences between PPG and non PPG pupils nationally.
