

Year Three Week 2 Homework

Autumn 1

Spellings: Please revise all spellings for next week (adding suffixes beginning with vowel letters to words with one syllable): See attached spelling sheet:

Try out some of these strategies...

- Mnemonics (acronyms)
- Spelling scribbles
- Spelling word race
- Scramble the words
- Speed Writing

English:

"I'm taking you to Mrs Cole," is still our theme for next week. We will be looking at how to use conjunctions and verbs. Please look at the link below to show the children how conjunctions are used to extend sentences and to give them more explanation. Try writing sentences using: and, so, or, but, therefore, enough and unless. Also in speech, try to encourage the children to use powerful verbs so that writing them becomes natural. <https://www.theschoolrun.com/what-is-a-conjunction>

Topic:

This week we looked at how much sugar there was in drinks and how too much sugar can cause tooth decay and diabetes. Did you know even fruit flavoured water has 3 teaspoons of sugar in it!

We also looked at our muscles and are beginning to understand how they work in pairs and what an involuntary muscle is. Next week we will be making paper skeleton puppets and looking closely at the structure of the human skeleton.

Maths:

The children are encouraged to continue to learn all their times tables as they will be tested every week on different numbers as well as a mental maths test of the weeks work. Year 3 expectations are to cover all of the 12 times tables.

We will continue to work with place value and estimating as well as rounding numbers.

Please look at the website below to aid you with some games to help with rounding:

<https://www.youtube.com/watch?v=f068CFz1bss> ALSO <https://www.topmarks.co.uk/maths-games/7-11-years/times-tables>

Please read and practice all the times tables with your children every eve.

P.E. is on Friday for Oak and Ash Classes.

Mrs Orford and Ms Hussain.
