

Beechfield School Smile Stones

We would love children, families and staff from our school community to decorate a stone at home using paint or pens. Your design should be something that will make others smile!

You can either find your own stones to decorate or come and collect stones to decorate from a box that will be left in the school car park.

When you have decorated your stone, please bring it to the school car park and place it in the box of decorated stones by **Friday 17th July**.

Once we have gathered your stones, we will use them to create a bright and cheerful display on the school grounds. We hope you enjoy decorating your smile stones!
