

YEAR 4 HOME LEARNING

Week Beginning: 12.10.20

MATHS

Next week, we will be focusing on written addition and subtraction (column method) with regrouping.

Here is an example:

$$\begin{array}{r} 876 \\ + 552 \\ \hline 1428 \\ \hline \end{array}$$

876 + 552 = 1428

Please log on to Mathletics to complete the 'add 3 digit numbers' activity set. We will be able to see who has completed the Mathletics activity at home so it would be great if you could have a go!

READING

At home, can you read and learn the 'Autumn is Here' poem that we have been learning?

Can you use the actions at home?

If you would like to, log on to Purple Mash to read Chapter 2 of 'James, King of England' and have a go at answering the 'Online Multiple Choice' quiz. They have both been set as a 2do.

Please remember to sign your child's reading diary every day.

TIMES TABLES

Next week, we will be looking at the 3, 4 and 5 times tables.

SPELLINGS

Our spelling rule next week: Homophones and near homophones.

Weekly spellings to learn:

medal, meddle, missed, mist, accept, except, affect
effect, weather, whether

Try finding out the meaning of each of the words.
Can you draw a picture for each to help you remember which one to use in your writing?

How many of each word can you write in one minute?

REMINDERS

Please wear your P.E. kit to school on a Wednesday (Pine and Palm class).

Remember to read daily at home. It doesn't just have to be your school reading book. Once you have read, please fill in your reading record.

Please bring in any autumn leaves, conkers, acorns, pine cones etc. that you find this weekend. These will inspire our poem writing next week!
